

CONTAINS 100% PLANT PRODUCT  
NO ANIMAL PRODUCT ADDITIVES  
CONCENTRATED FORMULA

**SUPERGROW** - 18 & 32 ounce bottles

Harvested from organic non-genetically plant extracts, SUPERGROW is a pure pasteurized liquid concentrate that replaces synthetic plant nutrition products. SUPERGROW contains no animal product or pathogen and is safe for all indoor and outdoor plants, trees, flowers, culinary gardens, roses and orchids. Chemical plant fertilizers work by "greening up" plants by overdosing with a synthetic concentration of heavy metals including zinc and copper, which are toxic to plants, people and animals when ingested or airborne. Long term usage weakens the immune system of the plant and disease or pest infestation is likely. By feeding the plant's system with a natural concentration of vitamins, minerals and natural growth hormones in tandem with SEA-KELP 100, your garden and turf will thrive while replenishing soil conditions for future growing.

**SEA-KELP 100** - 18 & 32 ounce bottles

100% Ascophyllum Sea Kelp concentrate enriches your soil and provides plants with the vital nutrition they need. Harvested along the North Atlantic shoreline and reconstituted into a liquid concentrate, Sea Kelp 100 contains natural organic growth hormones known as Cytokinins (carbohydrates) which release essential minerals into soil, and open up the plant's root system to allow for more effective water and mineral uptake. The end result is a stronger healthier plant that wards off frost damage, pests and disease while enriching damaged and leached soil. Helps corrects soil pH and attracts beneficial earthworms. Use on any plant, tree or vine that is dormant or stressed, and watch it grow!

**LAWN FOOD** - 30 lb. Plastic Bucket

Organics Rx has formulated a simple one step dry pelleted lawn food product for home and commercial use. Contains no animal product or synthetic chemicals. Enjoy a lush green lawn with no toxicity or strong odor. Encourages beneficial earthworms, creates strong root development, accelerates new grass and growth, improves soil structure while strengthening resistance to disease and pests. Adds important nutrients to grass and soil which aid in more efficient water uptake with continued use.

One 30 lb. bucket feeds up to 2,800 square feet of turf.

**METRO SHELVING UNIT & ORGANICS Rx END CAP KIT**

The original industrial restaurant grade Metro steel shelf maximizes space for Organics Rx products as an end cap display. Shelving kit includes 4 each : 24" W x 14" D Super Erecta shelves, 4 of each: 54" H chrome posts and split sleeves. Kits can be easily assembled without the use of any special tools. Shelves can be adjusted at 1"(25mm) along the entire length of the post. The shelving rib runs front to back, allowing items to slide on and off smoothly. The open construction enables you to load from all sides and allows for maximum use of storage space for Organics Rx products. Organics Rx Signage included with shelf order.
